LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO DEC. 10.

EASTERN STATES.

New York News.

NEW YORK, Dec. 11.—Small-pox is increasing in Brooklyn.

A stormy meeting of the Internationals was held this evening. Theodore H. Banks presided. After a great deal of violent declamation against the police authorities for preventing the parade and arresting members of the society on Sunday last, a motion to parade next Sunday was carried amid the wildest applause. A committee was appointed to wait on Governor Hoffman and request him to revoke the police order, and ask the State for protection. Another committee was appointed to inform the Superintendent of Police of their determination to parade. The meeting was finally broken up with loud yells, "Vive La Commune!" "Vive La Internationale!"

NEW YORK, Dec. 11.—John Pottitt and Lizzy Lanrib have been convicted of illegal registration and sentenced respectively to two and a half and one year in the State prison.

Twenty new cases and three deaths of small pox have occurred since Saturday.

It is reported that leading reformers have a full understanding with Mayor Hall as to his future official action.

Boston News.

BOSTON, Dec. 11.—Alexis gave a private banquet this evening to some twenty-five gentlemen, including Governor Claflin and Mayor Gaston.

G. W. Palmer, a well known electrical instrument maker, fell down stairs to day and was killed.

Mr. Gaston, Democrat and Citizens' candidate, is re elected by 3,700 majority, over Talbott, Republican.

The Wharton Murder.

ANNAPOLIS, Dec. 11.—In the Warton trial Professor Aiken detailed his analysis and tests for arsenic in the stomach of Ketchum. None was found, but sufficient of sulphide of antimony was discovered to make fully twenty grains. The witness also testified to finding from ten to twelve grains of tartar emetic in the sediment of a tumbler taken from the house of Mrs. Wharton. He was rigidly cross examined.

From Philadelphia.

PHILADELPHIA, Dec. 11.—The explosion of a coal oil lamp caused a fire last night in a dwelling on Perth street above Parish, in which the body of a man who died of small pox was consumed. A mother and three children were burned out of their house and the neighbors would not give them shelter for fear of infection. They were subsequently brought to the station house.

Snow Bound Passengers Arrive at Chicago.

CHICAGO, Dec. 11.—Snow bound passengers on the Union Pacific, eighteen days from San Francisco, arrived here to-day.

General Eastern News.

NEW YORK, Dec. 12.—A special dispatch from Raleigh, N. C., states that both branches of the Legislature held excited debates upon recent arrests for alleged Ku Kluxism. The General Assembly authorized the Attorney for the State to apply to the Supreme Court of the United States for a writ of habeas corpus to test the legality of the military arrests.

An Atlanta dispatch states that a conflict has arisen between Gov. Conley and the Legislature, the former declining to recognize the right of the latter to extend the session beyond the legal forty days. Yesterday the Governor instructed the Treasurer not to pay members. It was rumored at midnight that the President would support the Governor against the Legislature. Both houses meet to-day.

A decision is expected from Judge Larned, at Albany, within a day or two, upon the question of reducing the amount of Connolly's bail. A hearing in the libel suit of Helen J. Mansfield against James Fisk is postponed till Saturday. Edward S. Pierrepont volunteers his services to the lately arrested Internationals, in proceedings against the city.

The action of the authorities in prohibiting a parade on Sunday is bitterly denounced everywhere throughout the city.

At a recent meeting of the Atlantic and Great Western Railroad Co.'s railroads, in New York, the Ohio and the Pennsylvania roads were consolidated. The organization is hereafter known as the Atlantic and Great Western Railroad Company. Gen. Geo. B. McClellan is chosen President.

The first colored juryman in New York was yesterday sworn in, in a case before the Marine Court.

Charles O'Conor was incorrectly reported at Albany. What he did say was that he had found nothing in his investigation to indicate that Mayor Hall was a regular thief.

WASHINGTON CITY.

Congressional.

WASHINGTON, Dec. 11.—Ramsey introduced a bill in the Senate to establish the Territory of Ojibway, and provide a temporary government therefor. The proposed territory lies between the 46th and 49th parallels, extending from Minnesota to Montana.

Carlisle reported a bill appropriating $480,000 for the supply of a deficiency in the expense of taking the ninth census.

Campbell asked leave to offer a concurrent resolution requesting the President to cause negotiations to be commenced with Great Britain and Mexico with a view to ascertain the conditions on which they would consent to the annexation of their possessions on this continent to the United States.

Banks thought there would be no objection to its reference to the Foreign Affairs Committee, but Mr. Bingham objected and the resolution was not received.

The House spent an hour in Committee of the Whole on the Apportionment bill without special result. Adjourned.

Official Business.

WASHINGTON, Dec. 11.—Secretary Fish has written a letter to Banks, Chairman of the Committee on Foreign Relations, calling his attention to the necessity of an early appropriation of $250,000 to meet the expenses of the tribunal arbitration under the Treaty of Washington. Banks introduced a bill to-day to carry the Secretary's recommendation into effect.

The Senate to-day ratified the supplemental canon between the United States and Mexico, extending for two years the time for the settlement of claims between the two countries.

The President sent the following nominations to the Senate to-day: Alfred E. Shannon, of Nevada, Register of Land Office, Austin, Nevada; John L. Routt, of Illinois, Second Assistant Postmaster General; John R. McBride, Superintendent of U. S. Assay Office, Boise City, Idaho; Wm. D. Hughes, Clerk at Boise City, Idaho; Charles A. Mastone, Assayer, Boise City, Idaho, and Robert P. Andrews, Melter and Refiner of the Branch Mint at Carson City.

Morgan introduced a bill providing an amendment to the Constitution so as to make naturalized citizens eligible to the office of President or Vice President of the United States.

King introduced a bill providing an amendment to the Constitution prohibiting the intermarriage of whites and blacks, and authorizing the States to provide for the separate education of white and colored children.

Confirmations by the Senate.

WASHINGTON, Dec. 11.—The Senate to-day confirmed a large number of appointments. Among others is Frederick Watts, of Penn., for Commissioner of Agriculture; Frances A. Walker, of Mass., Commissioner of Indian Affairs; James M. Lucas, Consul at Shanfoo; George A. King, Collector of Internal Revenue for Nevada; F. Drew, Collector of Customs District of Puget Sound; Geo. A. Eden, Collector of Customs for the District of Alaska; Wm. Michael, Assistant Attorney General of the United States; Geo. C. Bates, U. S. District Attorney for Utah; James W. Fisher, Chief Justice of Wyoming; R. Johnson, Jr., Associate Justice of New Mexico. The nomination of Walter R. Irving, of Illinois, to be Register of the Land Office in Utah, was withdrawn.

Miscellaneous Washington News.

CHICAGO, Dec. 12.—A *Tribune* Washington special says it is given out to-night by those supposed to be posted, that Alderman will retire during the present week and Williams, of Oregon, expects to succeed him. So certain is the latter of the change that he is taking steps to secure a house in view of entering the Cabinet.

The Ways and Means Committee will soon report favorably upon Lynch's bill for remitting and refunding the tonnage tax on sales of vessels and will add an amendment providing for the abolition of the income tax and removing the tax on many small articles of manufacture.

The Judges of the Supreme Court are engaged upon a formal opinion upon the legal tender decision. Five or six separate opinions are expected.

A *Times* special says there were 525 bills introduced in Congress to-day, besides two joint resolutions proposing amendments to the Constitution making naturalized citizens eligible for the Presidency, and another providing for absolute free trade and the substitution of direct taxation in its place. Probably two-thirds of these measures will never reappear from the committees to which they are referred. The most important of these bills, however, were those introduced in the House to carry out the provisions of the Treaty of Washington, and to create a Labor Bureau, and those in the Senate to abolish the Internal Revenue Bureau and raise the tax on whisky to 90 cents per gallon.

BY ATLANTIC CABLE.

Condition of the Prince of Wales.

SANDRINGHAM, Dec. 11—10 P. M.—The Prince of Wales has not slept during the evening, and his general condition continues unchanged.

Death of the Prince of Wales Imminent.

LONDON, Dec. 12, 5 A. M.—The Prince of Wales, according to an official bulletin just received from Sandringham, passed a restless night. There are no signs of improvement in his condition, and death is imminent at any time during to day from suffocation. His strength is not so good, and what sleep he has is followed by restlessness and unquiet. The chest symptoms are bad. Princess Alexandria is greatly exhausted. The Princess Royal Victoria, wife of the Crown Prince of Germany, is hourly expected at Sandringham. The Prince is threatened with inflammation of the lungs. The excitement in London and the provinces is greater than during the Crimean war.

The strike of the telegraph operators continues, greatly to the embarrassment of the public. At the present junction the wires are crowded with messages, and serious delays are expected both in public and private service.

Miscellaneous European News.

MADRID, Dec. 12—The election for Cortes took place to-day throughout Spain, and it is already known that the Republicans have triumphantly elected their candidates in twenty-three out of forty-eight capitals of provinces and forty-three small towns.

A dispatch from Bombay states that the cholera is raging severely among the natives of Lucknow and its vicinity.

BERLIN, Dec. 11. The Federal Assembly passed a bill legalizing civil marriages.

FRANKFORT, Dec. 11.—The Plenipotentiaries of France and Germany signed an additional peace convention to-day.

SANDRINGHAM, Dec. 12.—The Prince passed a restless night. He slept but little, and the prospects are discouraging. The latest official bulletin is as follows: The Prince passed a restless night, and has been restless all the morning. His condition is unaltered. Signed by the physicians of his Royal Highness.

It appears from the London *Times* that the Prince of Wales contracted his illness at Lord Londsborough's house, near Scarborough, Yorkshire. Several guests who visited the house at the time were attacked with fever; among them the Earl of Chesterfield, who has since died.

Another English journal speaking of the Prince's illness says there seems to be no liability to this kind of attack in the present branch of the Royal family. The Duke of Kent, Queen Victoria's father, died from a cold fever, said to be produced by sitting in damp boots after returning from a shooting. Prince Albert, the Queen's husband, died from consequences of the neglect of a cold. The present illness of the Prince is said to have been induced by a chill following exercise and exertion in sport.

Sir Charles Dilke and the Queen.

[From the Pall Mall Gazette.

Sir Charles Dilke has given the Queen notice to quit. It need not be said that this eminent young man has not taken this momentous step without consideration. He has calculated the cost of the monarchy in pounds sterling, and considered that it is not worth the money paid for it. In the plenitude of his civil, military and naval knowledge, he has condemned the royal household, the royal guards and the royal yachts. They are all so bad that he is willing to welcome a republic if there is only a chance that it will give us anything better. Upon every one of these points Sir Charles Dilke speaks with the advantage of intimate personal knowledge. He can tell us how many cooks there are in the royal kitchen; and what salaries are paid to the servants that deck the tables. He knows which officials are "totally useless," and which ought to be paid by the piece. He has sought and found the able bodied seaman who paints the lion and the unicorn on the Queen's yachts, and he is shocked to find that he is "maintained all the year round." The personal labor entailed by these researches is beyond reckoning; indeed, we fear that Sir Charles Dilke's whole vacation—perhaps the whole of some former vacations as well—must have been spent at Windsor. Probably there is not a public house in the royal borough which cannot tell of a mysterious stranger who has haunted the parlor for months back and listened in silence, broken only by an occasional question of startling pertinence, to the question of the Queen's footmen. It was well for his health both of body and mind that the autumn manœuvres called him away to judge and sentence the cavalry of the guard. He passes over the stampede at Chobham because the troops knew that his eye was not upon them. But on several occasions during the subsequent campaign their cumbersomeness and unsuitability to modern war were amply demonstrated "in my presence." What condemnation could surpass this in quiet severity? In Sir Charles Dilke's very presence, with the chance of being mentioned in a note to a future edition of "Greater Britain" constantly before their minds, these miserable troopers could only demonstrate their cumbersomeness. No wonder that the great civilian rode away with wrath in his heart and notes for his speech at Newcastle dropping from his pencil. The historian of the fall of the English monarchy may some day speculate whether it was the sight of the guards in a ploughed field or of the unlebodied seaman painting the lion and the unicorn which finally nerved Sir Charles Dilke to constitute himself fugleman of the middle classes and to say of the Republic, "Let it come!"

Considering the universal knowledge and the penetrating insight of Sir Charles Dilke, it is a little strange to find fault when trying to interpret Disraeli's late description of the Queen's political duties. He is intellectually prostrated by the statement that the Queen signs nothing that she does not approve. "What," he asks, "does the Emperor of Russia do more than that?" If Sir Charles had that experience of personal government which, were he only a Russian subject, he would be no long time gaining, he would understand that there is a great difference between signing everything that you do approve and signing nothing that you do not approve.

The Louisville *Courier Journal* says the "nomination of Tom Scott, of the Pennsylvania Central, for President looks a little bilious. If Bob Wiggins, General Superintendent of the Bungtown Narrow Gauge Turnpike, should declare the use of his name for the Vice Presidency on the ticket no fear the thing would prove a failure."

A bill in the Illinois Legislature proposes that women shall not be debarred from any occupation or employment except the military. Why except the military? They certainly ought to have some knowledge of "infantry" tactics.

THE TERRITORIES.

The debt of Olympia is $12,827.

The crew of the *Hattie C. Bears* has been brought off from their camp near the wreck and have arrived at Port Madison, Puget Sound.

In the silver mining regions of Utah there has been a tremendous snow fall, entirely obstructing communication, and causing much suffering.

A case which originally involved $20 has been brought through the Courts of Idaho until the costs amount to about $1,000. The case began in a justice's court, which the same gentlemen sometimes adorn in Portland, and elsewhere. Those who make a business of cooking up these cases are public plunderers of the worst description.

A strange communication appears in the Salt Lake *Review* of the 27th inst. The writer lives in the East, and states that he was once a Mormon, and still believes in the original principles of Mormonism, as set forth by Jo. Smith. He declares himself able to shelter the secret of the mysterious power which Brigham Young and the other leaders exercise over their followers. He intimates that the thing called *endowment* is the strongest bond that binds the Mormons together. He has passed through the ordeal, and intimates that it is a secret order, in which all are bound by an oath of the blackest and most horrible nature, to avenge the blood of their prophet, Jo. Smith, on this nation. He stigmatizes this secret endowment as the foulest plot in the history of the world, and all done in the name of religion. He thinks its exposure would do more than aught else to break down the power of the hierarchy, and offers to write out the oath if the *Review* will publish it.

INDUSTRIAL NOTES.

A Prussian engineer has invented a machine which will manufacture ice without chemicals, merely by compression and expulsion of air. The specimen machine, now at New York, makes two tons of ice per day, and the capacity can be increased to twenty tons.

It is expected that the quantity of petroleum sent abroad from Philadelphia during the present year will reach 55,000,000 gallons, which will be a very heavy increase over last year's exportations, when it was 37,790,033, and in 1869, when it was 23,063,801 gallons. New uses for petroleum are constantly being discovered.

From a carefully prepared estimate of the extent of telegraphic communication now existing, it appears that there are 450,000 miles of railroad in Europe, 180,000 in America, 14,000 in India, 10,000 in Australia, and 30,000 miles of submarine cables to different points. This gives a total of 684,000 miles, which is increasing at the rate of about 100,000 miles per year.

European news is received by the California mail steamers ten days in advance of the direction by way of the Suez canal. This is a triumph of the Pacific railway and the California steamers. The route is direct and certain—London to New York by ten day steamers, New York to San Francisco by rail in less than seven days, and from San Francisco to Sydney by fast steamers.

It appears from investigation that in the killed, wounded and missing, the workingmen in Paris have decreased in number to the extent of 100,000. Out of 25,000 men employed in shoemaking, 12,000 are in fight or in prison. Tailors are equally bad off. Joiners appear to have emigrated en masse. The upholstery and furniture trade, which employed 60,000, is just now in a state of collapse for want of skilled hands.

NEWS CONDENSATIONS.

The Illinois Legislature is busily at work on minority representation.

Both parties in Boston have nominated Joseph Gaston a Democrat, for Mayor.

The book trade of Chicago before the fire footed up fifty million dollars per annum.

Minnesota and Wisconsin are having a cold winter. Cold weather began much sooner than usual.

Cincinnati burns soft coal, and is very smoky. It has just discovered that the yearly injury to the city from the cause is $3,000,000.

It has been proposed, in order to reduce the sea voyage between America and Europe to the least possible time, to construct a railroad 150 miles long across Newfoundland, and by various ferries and inland railroads complete a route to Halifax.

The labor reform and prohibitionist factions don't seem to be gaining much ground in Massachusetts as separate political organizations. Last year they threw nearly 22,000 votes in that State; this year they threw about 6,000 each, or 12,000 in all—a falling off of about 30,000.

Woodward, Ingersoll and others of the Tammany ring having disappeared, a belief is expressed that they are concealed in the American Club House. A writer in one of the newspapers says that he was employed in the building when it was erected, and that it seems to have been built for this emergency, there being places in the tower and elsewhere where persons could remain concealed, and elude the most thorough search for weeks and months.

POLITICAL NOTES.

The Troy *Whig* mentions the names of Millard Fillmore, Gideon Welles and John A. Dix in connection with the Presidency.

Frank Blair having declared that "this time we must have a naked issue," a contemporary wants to know if the Nude Departure will not answer.

The St. Louis *Republican* gives a list of forty-eight Democratic papers in Missouri who favor the policy of making no Democratic nominations for the Presidency and Vice Presidency in 1872.

Hpister City now is talked of as the next Democratic candidate for Governor of Pennsylvania. Heister has been tried once and couldn't climb worth a cent.

The Cincinnati *Enquirer* is obliged to make the humiliating confession that "the Democratic party, while still a powerful organization, does not show the numerical strength that would persuade a cool-headed party man to risk his pile on its success, without some assistance from those who have been opposing it." The *Enquirer* still sticks to Tom Scott, and throws overboard its old love, George H. Pendleton.

A NEW THING IN PHYSIOLOGY—WHITE MAN TURNING BLACK.—The San Francisco *Examiner* says a gentleman of that city, about twenty-five years of age, ruddy complexion and curly red hair, who had an intractable and painful ulcer on his left arm, resisting all previous modes of treatment, yielded to the request of trying the effect of transplanting a piece of skin to the ulcer from another person. The ulcer was prepared in the usual manner by his physician, and a bit of skin about an inch square was taken from the arm of a fine healthy negro man and immediately spread over the ugly ulcer, and then carefully dressed and bandaged. The skin transplantation had the desired effect. Healthy granulation sprang up, and the unsightly ulcer soon healed. A few months afterwards he went to his physician and told him that ever since the sore healed the black skin commenced to spread, and it was increasing. About one third of his arm was completely negroed. The doctor himself is alarmed. The high probability is that the whole skin of this white man will become negro. This is a new thing under the sun. It would be rather difficult to explain the physiological process which takes place to bring about such a skin change as this. The problem is, how can the coloring matter of the skin be so radically changed? And how is this pigment change propagated? It is certain that the law of capillary attraction plays no insignificant part in the spreading process. Grafting pears on an apple tree has communicated to the apple a pear taste.

Frank Blair thinks that if Grant is re-elected it will depopulate the South of whites. Frank has noted once before the *role* of a prophet, and we all know with what success. His latest prediction is as foolish as his former one was, viz.: that Grant, after his election, "would declare himself dictator."

The Origin of the Ku Klux.

A South Carolina correspondent of the New York *Tribune* writes:

The great underlying cause of "Ku Kluxism," and of all other political evils that affect the South, is the unwillingness of the people to practically accept the changed condition of the negro, and to recognize his free right to exercise his new privileges of citizenship. The best men in the South try to do this, but it is hard for them to put in practice theories they have accepted as a necessity contrary to their convictions. They have been educated from boyhood to look upon the blacks as intelligent animals, the natural servants of the white man as much as horses and cattle. It is impossible for them at once to come to regard a negro as possessed of all the dignity of citizenship, and of all the claims to the protection of the law that a white man has. Men's natures are not changed by acts of Congress, and it will require something more than a constitutional amendment to make a South Carolinian think or believe that his former slave is now rightfully his political equal. The amendment must first be made in the Constitution of the man himself. The deepest feature in the case, however, is that the most sensible men are honestly trying to accept the situation, and begin to believe that the prosperity of the South depends upon a complete reorganization of the results of the war. County Expenditures—Honest and Careful Management.

The *Herald* considers it immaterial that a document which recently got into print was a genuine report of the grand jury or not, though it purports to be such. Its statements, in any event, according to that paper, prove the existence of a "Tammany Ring" here who are swindling the county and putting the public money in their own pockets.

Since, then, the *Herald* does not chose to press the point as to the authenticity of the report, but wisely resolves to drop it, we meet it upon the statements of the document itself. It issaid, first, that "the people are made to pay $1,500 a year to the Sheriff, and $800 to the County Clerk that they ought not to pay." Now the $1,500 paid to the Sheriff includes the amount paid for keeping all the offices and rooms in the court house in order, and pay for a jailor. Whatever may be any one's opinion as to allowing compensation for a jailor, no person will question that the services of a janitor are indispensable and must be paid by the county. The court and jury rooms and the various offices are all to be swept and put in order daily. Wood is to be carried in and fires are to be kept up. For this service and for pay for a janitor $125 a month has been allowed. The Sheriff may, perhaps, be should, be required to pay the janitor out of his own pocket, but for the other services enumerated the county will have to pay in any event. Last year, and the year before when the county was in Democratic hands, these expenses were paid out of the treasury with great promptitude and without a word of opposition from the gentleman who in his recent "report" characterizes them as "prodigate and unwarranted," though he was then editor of the journal which now thinks that the county authorities which allow them are a "Tammany Ring."

As to the $800 allowed the Clerk for keeping the county books, the Commissioners have their option of paying it to him or paying it to some one else. This is not a part of the duty required of the Clerk by law. We may add that to the last Clerk (who was a Democrat) the sum of $700 a year was allowed for this service. It strikes us that if there is a "Tammany Ring" here now, there was a very strong flavor of Tammany then. Yet the foreman of the late grand jury, who was then editor of the *Herald*, had no denunciation at that time to expend on the subject. Expenditures like these were not prodigate and unwarranted" when they were made (and at higher rates than now) by his own party.

The next point is that the expenditures of the county for the fiscal year ending July 6, 1871, were $54,475 32, against $45,592 24 for the previous year. Here is an increase, exclusive of $4,883 08, for the purchase of the Democratic organ (which is performing gratuitous under the jugular law to the extent of thousands of dollars) another chance to howl "Tammany Ring." Among the items of increased expenditure are these:

Keeping prisoners, increase	$1,923 64
Keeping paupers, increase	2,388 11
[illegible]	6,042 09
[illegible]	1,667 75
Roads and bridges [illegible]	3,119 01
Total	$15,251 19

It appears, then, that these five items make up the whole amount of increase and $5,068 05 over. Take the first item. What is the cause of [illegible] there? Simply that there are more criminals. Is this the fault of the County Commissioners? Take the second item. The cause of increase [illegible] is twofold, first, that there are more paupers, and second, that improvements have been made and implements and live stock purchased for the county farm. These expenditures were necessary and judicious, though the item to the apparent cost of keeping the county's paupers last year. Take the third item. Here the additional sums have been quite large. There were [illegible] in the administration of justice. How can they be curtailed? Cases in the Circuit Court have multiplied very rapidly of late, keeping pace with the general [illegible] of business of all kinds. With the increase of population we have a proportionate increase of the lawless element, and consequently more criminal trials than formerly. Again, as the laws now stand, the county is put to much unnecessary expense by cases cooked up in justice's courts and sent to the higher Courts for trial. A large number of persons continually employ themselves in hunting up petty cases and making what they can out of them. These persons are the fomentors and conductors of the petty war of municipal vexation, and the county has to foot their bills. There is a Justice of the Peace in Portland who has been instrumental in costing the county thousands of dollars, and who is still plying his trade. His office is the source from whence petty and vexatious suits almost without number have their origin. It is the center of this litigious trade, and its proprietor is a costly individual to the taxpayers of Multnomah county. He is a Democrat, too, and his ops. alone cost the county far more than the sums paid for jailor and janitor, about which so much noise has been made. Legislation is sorely needed to limit the opportunities of such persons for preying on the public, for as matters now are the county is compelled to pay for such prosecutions, whether it is willing or not. Take the next item, roads and bridges. Will any one or view of this expenditure, would we have half enough of this sort of improvements? The last item, rewards for capture of criminals, is exceptional, and was incurred in ridding the community of the worst gang that ever plundered and terrorized it.

Here, then, we have a partial analysis of the expenditures which the *Herald* says indicate the presence in our midst of a thieving "Tammany Ring." Citizens will see from this exposition how utterly absurd and unfounded such an assertion is. The Judge and Commissioners of Multnomah county are old citizens here, and are men of established character and known probity. The effort to identify them with any attempt to use or handle the public funds for their own profit or the profit of any one else, will evoke no answer but public contempt for those who make such reckless charges. There are not more honest or more careful business men among us, and it is only truth to say that the finances of the county were never more honestly or more conscientiously managed than they have been in these men's hands. The babble about a "Tammany Ring" shows how utterly the Democratic organ is driven to its poor wits' end to find something to allege against political opponents.

James A. Garfield and George W. Julian, early woman suffragists, have, we learn, fallen from the good work—frightened from their propriety and advocacy of the Woodhull-Claflin demonstration.

PACIFIC COAST DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Dec. 12.—Carlos Cortez, a young Spaniard, shot himself in the region of the heart, at Gaillard street, to-day. He was taken to the hospital in a dying condition. He is a relative of a wealthy merchant of Mexico.

Two incendiary attempts were made in the southern part of the city late last night, a barn and a house being fired, but without success in either case.

The residence of Milton H. Myrick, No. 500 Farrell st., was damaged $500 by the carelessness of a servant in depositing ashes.

Miss Turner, who obtained judgment against Ortez for $750 for seduction and breach of promise, has died somewhere in the complaint of her former attorneys, Wheeler & McQuade, who garnished the judgment for fees due them. She sets up as defence that they mutually agreed to prosecute the suit for one-third of the judgment, and then backed out because she would not compromise, as Ortez desired, for $10,000.

Weather cold and cloudy. Wind northwest.

The steamship *Constitution*, from Panama and Mexican ports, is not yet telegraphed. She is expected to bring late news from the revolution in western Mexico, and probably some refugees.

Seven thousand kangaroo skins, the first received in this market, came here some months since from Australia, and are being tanned for leather at Oakland.

The ship *Matchless* is to load flour immediately for Hongkong.

SAN FRANCISCO, Dec. 12.—Gustavus Kellogg, an ex-sailor on ship *Hildebrand*, from Coos Bay, fell from the mast to-day, at Mission street wharf, and was instantly killed.

The Mexican Consul is in doubt as to his duty in clearing a cargo for Mazatlan, on account of its being in the possession of rebels. For Guaymas and Cape St. Lucas there is no restriction, as the Federal authorities were in peaceable possession of those places at last accounts.

Owing to the prosecution of parties engaged in any manner in aiding or assisting lotteries, Wells, Fargo & Co. now decline even to receive tickets which have drawn prizes and collect the money thereon for the holders. Several prizes drawn in San Francisco in the late Grass Valley lottery are yet unclaimed, for this reason.

A paper which does not get its news from the Associated Press is the victim of a grave joke this evening. Having been informed that the Associated Press had received news of the death of the Prince of Wales, it immediately posted a stunning placard announcing the event, and still has it posted, attracting a large crowd.

It is reported that the manager of one of the low-class theaters has "absconded the ranch" for Portland, leaving the bulk of his company out and injured on their salaries, and various liquor dealers and others minus the stock furnished.

The San Francisco Medical Society this evening passed resolutions for the establishment of two free dispensaries, to be established in the city for the poor at the expense of the city. Dr. Morse is now delivering the annual address.

The Mercantile Library hall is crowded this evening by members of the Jewish faith, to listen to lectures on "relations of Judaism to civilization," by Ellinger, of the New York *Jewish Times*.

INTERIOR CALIFORNIA DISPATCHES.

SAN JOSE, Dec. 12.—The survey of the first street railroad was commenced to-day. Iron is to be laid by Thursday, when a large force of men will be put on.

STOCKTON, Dec. 12.—A view was found near Banta Station, last evening in an insensible condition, having been thrown from runaway team which he was driving. His injuries it is thought will prove fatal.

WYOMING

Railroad Accident and Fire.

CHEYENNE, Dec. 12.—A passenger train from the east ran off the track last night at Lookout Cause—broken rail. No one injured.

The fast freight train from the west ran off the track at or near Rock Springs. The caboose burned. It is reported that the conductor and brakeman were severely injured.

At this moment—8 P. M.—the railroad eating house at Cheyenne is in flames, and the station in danger. A high wind is blowing.

NEVADA

VIRGINIA, Dec. 12.—A teamster named Sheldon was accidentally killed, to-day, about 12 miles south of here, by the overturning of a heavy loaded wagon upon him.

The Democratic Situation.

The New York *Herald*, in an article on the forlorn condition of the Democratic party remarks:

The smash-up of Tammany has knocked into smithereens the entire fabric of the Democratic party all over the country. There is now no organization—scarcely a nucleus, except the National Executive Committee, around which to form preparatory to engaging in a Presidential contest. Hence the "Soft Democracy," the passive Democracy, the fire-eating Democracy, and the Democracy without name, without head or tail, will have to await the assembling of Congress next week, when some of the old party leaders may meet in Congressional conclave and contrive some way for the Democracy emerging from their present "Slough of Despond," and, possibly, select some modern Moses who may lead them safe out of the wilderness.

Congress has assembled and the Democratic leaders in that body confess that they have nothing to offer except the stale platitudes used in former campaigns. Meanwhile their journals all over the country are nominating such Republicans as Sumner, Gratz Brown and Horace Greeley. But the New York *Citizen*, a prominent Democratic paper, doesn't like this sort of thing, and is especially incensed at the proposition to make Sumner a Democratic candidate. It says:

He was an abolitionist when to favor abolition was a crime. He was an enemy to the Constitution when the people were governed by and devoted to that document. To have proposed fifteen years ago to make such a nomination would have produced inextinguishable laughter.

Has the Democracy been defeated so often and so disastrously that it has lost even the memory of its honors, its past record and its principles? Is it willing to sink everything for a chance for success, and so miserable a one as such a candidate would give? Does it imagine it can bring together a motley throng of rabid abolitionists, copperheads, conservatives and new departurists to sustain so ludicrous a proposition? As for ourself, we can only say—and we believe we speak for thousands of Democrats—that if Sumner is to be the candidate of the Democracy we will turn Republican, and that, to a choice between him and General Grant, we shall support Grant. We will go for the man who helped save the country rather than for the one who strove to destroy it, if the selection is confined solely to those two.

And so the farce goes on.

Since the forced resignation of Governor Bullock of Georgia, who it is generally considered feathered his nest well with greenbacks and his exit from the State, Georgians are sending forth the following plaintive appeal:

O, give us back our Bullock,
From Cape to borne complete,
He's fattened at our public crib,
And now he is our meat.

Cady Stanton has come out with a plan to defeat Grant's re-election. It is to run a fusion ticket without a platform; a candidate in every State.

Failure of many of the most eminent physicians of San Francisco to cure a case of Rheumatism.—Triumph of the Uric Weed Remedy.

SAN JOSE, August 25, 1871.

DR. A. M. LOUIS & CO.: This is to certify that I, the undersigned, have been sick for five years with Rheumatism, and have been treated for many ailments. My trouble has been weakness of the back and side, and wandering pains all over my body. I have been treated by many of the most eminent physicians of San Francisco, as well as of this city, but without any effect. At last I was induced to try your UNE WEED REMEDY, and the result was that after taking the contents of two bottles I found myself perfectly cured. To all afflicted with Rheumatism, I say TRY THE UNE WEED REMEDY, and you will be cured. Yours truly,

The Daily Oregonian.

WEDNESDAY MORNING, DEC. 13, 1871.

CITY.

HILLSBORO AND VICINITY.—A Hillsboro correspondent sends us the following items under date Dec. 12th:

The Tualatin Navigation Co's. boat will leave Oulfax on Wednesday, the 13th, for Hillsboro and Emerick's. They intend to run her regularly all winter.

The railroad track is laid to a point within two miles of Hillsboro.

Mrs. Carrie Young lectured again last evening at the court house—subject, Temperance. She is also canvassing for her paper, the *Woman's Journal*.

Considerable game has been driven down out of the mountains by the late snow and sportsmen are having a good time.

Several lots of fine beef cattle are offered for sale in this market.

The contractor, Mr. S. H. Elliott, will commence mantling for the new Court house next week.

There is a good chance for the establishment of a newspaper at this place, provided the proprietor can live on "sick" and truck.

The town of Hillsboro is growing rapidly, and out of the small children are large enough to go school.

TRAVEL.—The steamer *E. N. Cooke*, plying between Portland and Oregon City, leaves every morning, except Sundays, at 6 o'clock. Connection is made at Oregon City on Mondays and Thursdays of each week, with the *Fannie Patton*, for Corvallis and intermediate points. On Mondays, Wednesdays and Fridays connection is made with the *Dayton*, for Lafayette, on the Yamhill river, and intermediate landings. The rates of fare are advertised in another column.

A new time-schedule for the O. and C. Railroad, in which there are important changes, goes into effect to-day. Passenger trains, however, leave East Portland at 1:30 P. M. as heretofore. The arrival of the down train will be some earlier than before. The principal changes are in the hours of freight trains. For particulars we refer to the schedule itself.

KU KLUX?—A cotemporary tells how a young man went to see his girl, Sunday evening, which the same lives on Pine street; how he stayed and chatted and everything was lovely till the witching hour of 8:30; how, at that half hour, there was a very large tap, tapping at the door; how, when the door was opened by one of the ladies, two men with muffled faces and slouch hats (very like a Ku Klux) rushed in and entered the parlor; how they kept their eyes about them and, using their eyes, saw the aforesaid young man who had gone to see his girl; and how, upon this, the two men with the muffled faces and slouch hats, went "right away quiet" saying never a word. This is all thrilling, and suggests the natural query: "Have we Ku Klux among us?"

NOTABLE REMOVAL.—Messrs. Hawley, Dodd & Co., importers and wholesale dealers in Agricultural machinery, iron, hardware, etc., have just completed their removal from the corner of Oak and Front streets to the large, fine warehouse built and owned by Savier & Co., corner North, Front and Vine streets—same block with Knapp, Burrell & Co., and Corbitt & Macleay. They will, in a few days, be able to display their immense stock of goods with fine effect. This building is very nearly if not quite equal in size to that of Knapp, Burrell & Co., having a front on both North Front and First streets, and is located very conveniently near all the steamer landings.

GOODS STOLEN.—About half past five or six o'clock Monday evening the provision store of Messrs. Andrew & Rowe, on Washington street, was robbed of about twenty-five dollars worth of goods while one of the proprietors was absent at supper and the other in the back part of the building. The goods had been received but a few minutes before, and had been placed just inside. The *nippers* probably came along and seeing no one in the store concluded he wouldn't find a cheaper place to procure family supplies, and so just took them along without waiting to learn the price.

STEAMBOAT AGROUND.—We are informed that on Monday night, during the darkness and dense fog, the steamer *Mary Bell*, bound from Monticello to Portland, ran hard aground on a mud flat near Willow Island in the Wallamet river. After being kept on board all night the passengers were brought up to this city yesterday morning by the steamer *Vancouver*. At last accounts the *Mary Bell* was what the river men call "high and dry" on the bar.

THE PACIFIC INSURANCE CO.—We learn that a dispatch was received in this city, from Mr. Ralston, San Francisco, the tenor of which was the same as the San Francisco press dispatch, published yesterday morning, in relation to the winding up of the affairs of the company. It is also reported that the Liverpool, London and Globe Insurance Co., which has taken the outstanding risks of the Pacific Co., will establish a branch office in this city.

BENEFIT.—Next Saturday evening at Oro Fino Theater Mr. Dan Lowrey, who came here with the Cogbill and Cooper troupe about two months ago, will take a benefit. Mr. Lowrey has been sick in this city for six or seven weeks, and therefore stands in need of assistance. The performance to be offered will be dramatic. There will be also a matinee Saturday afternoon.

ORDERED TO ARIZONA.—It has been understood for some time that the Twenty-third United States Infantry regiment would be ordered to Arizona. We learn that marching orders have been received and that the troops will be embarked on board the steamship *Ajax* on her next departure from Portland.

MASONIC CELEBRATION.—The Masonic fraternity at Oregon City, will celebrate St. John's Day by an installation of officers, and an oration and supper. It is said that members will be present who assisted at the institution of the first Masonic lodge of the Pacific coast.

HE HAS AN ANSWER.—In the case of J. M. Murphy, examined yesterday before Judge Denny, the accused was held to answer to the charge of assault with a dangerous weapon. Mr. Murphy gave bail in the sum of $500 and was released.

I. O. G. F.—It will be interesting, at least to members of the Order, to know that the Odd Fellows of Oregon City have taken measures for the organization of an Encampment. The institution will probably take place during this month.

CLOSE OF THE PUBLIC SCHOOLS.—The present term of the public schools will close on the 15th inst. Examination will begin in the Harrison street school on Thursday, the 14th, and continue until 12 M. on Friday.

INSPECTION.—Brig. Gen. O. P. Bell, commanding the Second Brigade Oregon Militia, has notified the Emmet Guard that he will inspect them, at their armory, this evening at 8 o'clock.

RAILROAD LABORERS.—A large gang of Chinamen who had been at work on the O. & C. railroad above Eugene City, came down on the noon train yesterday.

SOCIAL DANCE.—There will be another of those sociable affairs at the American Exchange Hotel on Friday evening.

In the New York *Herald* we observe an advertisement to the effect that a whole Funeral can be had for $25. Well, that is decidedly cheap; but think of selling suits of clothing at $16. It is done every day at Kohn & Fishel's, 91 Front street, where they not only sell suits cheap, but it is so in everything they offer to the public.

MEETING OF THE BOARD OF DELEGATES.

The meeting was called to order at 8 o'clock, Mr. A. B. Hallock in the Chair. President Hallock stated the object of the meeting.

Roll called—Messrs. J. H. Lyon and L. Knott, absent.

The Judges of Election made the following report:

To the Honorable Board of Delegates of the Portland Fire Department—GENTLEMEN: Herewith we present to you our report and return, as well as the ballot votes polled at the election held this day for Chief Engineer and Assistant Engineers, with the number of votes polled for the respective candidates in the Portland Fire Department, as follows: W. O. Bruen received 120 votes; A. A. Williams 125; A. Wendt, for Assistant, 120; C. E. Deitz, 113; Wm. Saunders, 109. Respectfully submitted,

S. C. MILLS,
C. BALL,
B. L. NORDEN,
Judges of Election.

The following preamble and resolution was read and on motion adopted:

WHEREAS, It appearing by the report of the Judges of Election, held on the 5th day of December, 1871, for Chief Engineer and for First and Second Assistant Engineers of the Portland Fire Department, A. A. Williams having received a majority of the votes cast for Chief Engineer, A. Wendt having received 120 votes, C. C. Deitz having received 113 votes, and Wm. Saunders having received 109 votes cast at said election,

Resolved, That A. A. Williams be and is hereby declared elected Chief Engineer; A. Wendt, having received the highest number of votes cast, be declared First Assistant, and C. E. Deitz having received the next highest number of votes cast, be declared Second Assistant Engineer of the Portland Fire Department for the ensuing term; and that the President and Secretary be instructed to issue certificates for the same.

A majority of the Judges of Election being present, on motion of Mr. Wicks, they were requested to state whether the box containing the ballots and Judges' certificate, were in the same condition as when placed in the hands of the Secretary. After carefully examining the same, the report was satisfactory to the Board.

On motion the Board adjourned.

LOCAL BREVITIES.

During the first six months of 1871 ten patents were issued to Oregon inventors.

The mighty crowds who go to the Pavilion to see Miss Moore skate are immense.

Judge Upton has granted a stay of execution in the case of Sam Vowles till next Friday.

Yesterday morning the Police Court was crowded with regulars and new customers.

The effort to raise the steamer *Senator* with trifling damage is likely to prove successful.

The Deputy Sheriff of Grant county brought down an insane man, arriving Monday evening.

The Harrisburg pile driver has been brought down the river to Oregon City en route to Portland.

The river has gone back on the rise and it is now placidly running down—toward the sounding sea.

One Lee, a witness in an alleged larceny case, is anxiously inquired for by the police but can't be found.

The pile-driver used in the construction of the steamship wharf at Astoria has been towed up to Portland.

Pat O'Connor, charged with giving liquor to an Indian woman, got off by showing that she was high-toned.

The bark *Welfoot* brought up enough iron to complete the first twenty miles of the Oregon Central Railroad.

There were two cases of "concealed weapons" disposed of yesterday morning in the Police Court, the offenders being fined ten dollars each.

One of the passenger cars built at the Oregon and California Railroad shops for the Northern Pacific Railroad was shipped to Kalama on Monday.

William Warren and William P. O'Rielly were on Monday held to answer in one thousand dollar bonds for an assault with a deadly weapon upon John Wall.

A COMMUNICATION FROM CHRIS COLUMBUS.

HE SENDS A PAIR OF SHOES TO THE Y. M. C. A.

PORTLAND, Dec. 12, 1871.

Secretary Christian Association—

SIR: Herewith find a pair of shoes recently purchased at P., G. & Co.'s, as good as new and which cost $7 coin. They are "a good shoe," but not adapted to my feet. I cannot reconcile my corns to their association. The corns grumble continually, and the shoes stubbornly refuse to yield the points in dispute or make any concessions whatever. Please appropriate this donation to the use of some unfortunate human plant in this hot house called earth, and assume all the expressions of gratitude as addressed to yourself, for I desire no thanks for the gift. I assure you if I could possibly have tolerated the "understanding" they never would have adorned the nether parts of any one else. I leave the string in the shoe to constitute a complete outfit.

Yours, CHRIS. COLUMBUS.

The Secretary begs leave to acknowledge in print the above communication. It is of the SUBSTANTIAL kind. At the same time he thanks Protzman & Gillihan for a whole drawer full of the "understandings."

When the discoverer of America and the merchants lend their assistance the Y. M. C. A. may well feel encouraged to go on with its work of *relief*. Christopher shall have some of our *ships* when we can recognize him—such as all subscribers to relief fund are entitled to. They read as follows:

"To the Secretary of the Y. M. C. A.:

DEAR SIR: The bearer is an applicant for relief; I send him to you. A. SUSSMUEH.

Respectfully submitted, W. R. JOYSLIN.

BUSINESS NOTICE.

DANCING SCHOOL.—Mr. C. Parrish, wife and daughter will organize classes in the latest fashionable dances in Philharmonic Hall on Monday evening next. They have taught many years in San Francisco and the East, and for the past year in Salem.

THE GRAND DUKE ALEXIS has signified his intention of coming as far west as San Francisco. He will not be able to visit Portland, but he has given orders to J. O'Neil & Co. for a suit of clothes, as he is well aware that at that establishment can be had the best fitting, most stylish, and to cap the climax the cheapest suits to be obtained in this city. Not only have they excellent clothing but they have a full stock of Star Shirts, new ties, undershirts, drawers and the famous Quenzo Dinbrella. It is unnecessary to say more. Go to O'Neil & Co's, 95 First street, and rest assured you will be pleased with what you see.

I say, mister, where is the Postoffice? Why, it is next door to S. L. Stone's cigar and tobacco store.

Kris Kringle's headquarters is at S. L. Stone's, next door to the Postoffice.

FOR THE HOLIDAYS.—By the next steamer will be received at Kast & Richards, Front street, between Alder and Morrison, a large and elegant stock of goods for the holidays. They have a full assortment of winter goods in store and will be happy to see everybody.

STYLES JUST RECEIVED.—Gilt Parlor Furniture! Easy Chairs in great variety; Bouquet Stands, Card Receivers, Wall Pockets, Finished in Gilt, Walnut, Ebony, Wax and Mezquetry. Call and see the Woven Wire Mattress at HURGREN & SHINDLER'S.

Work of every description in the house finishing line will be done at short notice to the best of satisfaction.

PAUL RICHTER.

As S. L. Stone is contiguous at once his fancy goods, toys and willow ware, this is the last chance to buy cheap.

S. L. Stone is giving more toys and fancy goods for six bits than any house in town does for one dollar.

Everybody says S. L. Stone is selling the best bit and two bit cigars in the city.

Shocks to the System.

The first shock of winter falls tremendously upon enfeebled systems. Every one knows that in passing from a warm region to a cold one, or vice versa, the body requires as a protection against epidemics, an acclimating medicine. All travelers and voyagers admit this. It is equally necessary to acclimate the system in passing the confines of one season and entering upon another. Autumn is gone and Winter is here. Prepare the frame and the constitution to meet the change by a course of Hostetter's Stomach Bitters. This inestimable vegetable tonic increases the stamina and strength of those who take it, and renders them proof to a great extent against the devitalizing power of cold and damp. These two agents are as prolific of disease as tropical heat, and animal vigor—such vigor as this healthful and pure tonic diffuses through the whole organization—is a repellant which they cannot master. A large proportion of the colds, catarrhs, and pulmonary complaints which prevail in Winter, might be avoided, by strengthening and regulating the system in advance with this fortifying and alterative. Not that it is recommended as a specific for those complaints, but as a preventive of their causes. On the other hand, it is not only a preventive of, but a specific for the indigestion, intestinal irregularities, billious fevers, billious attacks and nervous affection, superinduced by a chilly and damp atmosphere.

NEW YORK

LIFE INSURANCE COMPANY!

PURELY MUTUAL!

ASSETS.....$17,000,000!

ISSUED 9,925 POLICIES IN 1870.

Insuring Over $27,000,000!

WM. H. SEERS, Vice President and Actuary. MORRIS FRANKLIN, President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are:

1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1845. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.

3d. STABILITY AND PERMANENCY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premiums on gold, &c., has been sufficient during the past two years to pay accruing losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indebted for a feature so favorable to the insured.

5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately as cash in payment of premiums*. Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always has a dividend which can be used in the payment of the *second and all subsequent annual premiums*.

7th. THE DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and honored at any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although contestably claims, are not LEGALLY so. The records of this Company bear many acknowledgements from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. The Trustees being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the Trustees simply occupying the position of arbitrators between the members, with no inducement to take from one and give to another.

The ship *Windward* was close up to the bar on Friday when the tug crossed with the *H. W. Almy* in tow, but on Saturday when the tug went out for her, she was not to be found. The tug is laying by outside to tow her in on her first appearance.

It is reported that all policy holders in the late Pacific Fire Insurance Co., of San Francisco will have their policies transferred to the Liverpool and London and Globe Insurance Co. Of the latter Company we know nothing excepting that it is reported as one of the soundest doing business on this coast.

The following statement shows the imports of Grain into the United Kingdom since harvest, August 20th, compared with the two previous years:

	1871.	1870.	1869.
Wheat, cwt	10,293,650	7,003 038	9,434,584
Barley	2,063,580	1,257,575	1,149,065
Oats	2,083,310	2,507,899	1,833,233
Peas	94,297	193,409	150,743
Beans	778,502	232,455	343,060
Indian Corn	5,144,378	954,009	4,224,687
Flour		646,179	1,474,345

It will be recollected by many that in the year 1869 a great cry arose from the country of Brazil that was raised by the English and no conflicting news all the statements made and [illegible] were in doubt whether to make large shipments to meet the high prices demanded, but acting upon the general opinion put forth by the press, that there was or would be a scarcity of breadstuffs, exported largely from all producing nations to the United Kingdom, leaving a surplus, and the result was disastrous to them.

The action of our millers in reducing prices of Flour cannot but result to their interest, for although at present, owing to the high prices paid for Wheat, they will probably meet with a loss or barely cover cost and expenses incurred in marketing their Flour at the present rates, they will be sure to attract to this city all the Sonora and British Columbia trade, besides giving such inducements to Chinese shippers as will turn a large part of that trade hitherward.

In studying the trade of China it will at once be seen that as Rice advances, so much greater is the demand for Flour. Over 1,000,000 barrels from Hongkong to Oct. 25th, Flour. Over 1,000,000 barrels from Hongkong to Oct. 25th, gave a strong market for Rice, with prices already marked up, on previous advance, 2 cts per 100 lbs. This rise, up, on previous advance, 2 cts per 100 lbs. This rise, with the probability of further advance being made, was in consequence of the destruction of crops, city in and around the Canton districts by floods. So long have been the exports of Flour from San Francisco to Hongkong that to effect sales concessions had to be made, but upon information of the damage done in the Canton districts being received, holders of Flour in Hongkong were firm in their prices, making no concessions to any.

The next steamer from China to San Francisco brings advices of Rice being marked up still higher, it is altogether probable that she will also bring duplicate orders for Flour from houses heretofore engaged in shipping that article, if not also of it, from new [illegible]. If this should prove to be the case, no vessel is [illegible] to offer such inducements that those filling China orders will find it to their interest to ship direct from here instead of by way of San Francisco. The true interest of our millers lies in making as far as possible this the central point from which all direct shipments to China be made. Once established, these direct shipments and it will be a difficult matter to take the trade from us, with our superior Wheat for making [illegible] and a better article of Flour than anywhere in the United States, taken in connection with our water facilities for [illegible] the mills cheap.

The official table of the state of the lawful money reserve of the National Banks of the United States, as shown by the report of their condition, at the close of business on the 2d of October, 1871, taken as a whole, is most gratifying to the [illegible] and one which cannot but still further advance all American securities abroad, as the banks are the articles of all nations, and if they are sound and strong then a nation need never fear in entering the foreign markets abroad and not being able to dispose of at good rates, their securities. The inquiry for Bonds has been and still is so great from abroad that agents in New York are unable to [illegible] owing to the [illegible] high prices offered. The effect of this inquiry from abroad, for United States Bonds, and the difficulty and impossibility to meet the demand is having a visible effect on [illegible] Securities, as the capitalists being unable to procure U. S. Bonds are investing at home (in Government and Railroad Bonds or Securities, causing the market to rule firm at an advance. The number of National Banks, not including National Banks of Territories, are 1,556, with a reserve fund, on Oct. 2, 1871, of $96,835,570, or 21 1-10 per cent. of their liabilities, which is 4 1-10 per cent of the legal requirement of 15 per cent. Of the Banks of Redemption there are 280, with a reserve of [illegible] (16 fund, Oct. 2, of $75,227,007, or 28 7-10 per cent. of their liabilities, which is 7 7-10 per cent. more than the legal requirement of 25 per cent. There are besides the 175 above, 54 in New York city and 3 in San Francisco, making a total of 229. Those in New York city had, Oct. 2, a reserve of 59,151,314 or 27 7-10 per cent. of their liabilities, or an excess of 1 7-10 per cent. over the legal requirement. The San Francisco Banks did not show so well; it only said, October 2d's reserve of 24 1-10 per cent. on its liabilities, whereas it [illegible] less than 25 per cent. The National Bank of this city, we are glad to notice, made the best showing for Oregon of any of the States except Texas, [illegible] and Alabama, at that time for money to [illegible] the short crop and for other farming purposes; but in the State in the months of August, September and October the reserve for months was very great, and the rest to hold by the Portland National Bank of 30 3-10 per cent. of the amount of its liabilities when only required to hold 15 per cent. speaks well for our city, and only proves what has been often said of the banks for a city of our size, we contain more wealth than any city in the United States.

Produce Market.

The Bulletin gives in its commercial editorial the imports into the United Kingdom from August 20th to Nov. 11th, 1871, in comparison with the periods of 1870 and 1869. The market [illegible] unchanged, with no transactions to note. We quote shipping offers in absence of transactions: Humboldt, [illegible], will not command over $2 20 ₱ cental, if that.

FLOUR—Stocks are accumulating, notwithstanding the amount exported is fair. The *Gussie Telfair* took out to-day over 700 bbls mostly from Walla Walla. We quote market for extra of choice brands at $7 ₱ bbl; country brands, $6 75 ₱ bbl; outside and superfine, $6 @6 50 ₱ bbl.

HAY—Receipts are free, with the trade taking all the offers. We quote market at $20 ₱ ton for Timothy [illegible]; other descriptions at $18@20 ₱ ton.

General Memoranda.

RICE—Hongkong advices of Oct. 25th give an advance in that market of 10 cts ₱ picul, with market tending up. We have no change to note in our market.

PETROLEUM—New York advices give a dull and declining market, owing to the discovery of another well in Pennsylvania which turns out 1,500 to 2,500 bbls per day, which has affected the market for all descriptions of Petroleum or Coal Oil.

AN ORDINANCE IN RELATION TO THE ASSESSment and collection of taxes.

The City of Portland does ordain as follows:

Section 1. The City Assessor shall make and return the assessment roll of all property subject to taxation by the city properly certified to the Auditor, on, or before the first day of December in each year.

Section 2. Upon the filing of the assessment roll, the Auditor shall give notice by publication in some daily newspaper that the same is open for inspection and will remain open until the first day of January following, prior to which time all applications for correction of errors must be filed.

Section 3. Any person deeming himself aggrieved by the assessment, valuation, or taxing of property may apply to the Common Council for a revision of the same. Such application shall contain a list of all the property subject to taxation for city purposes, owned by or in the hands of, or under the control of the applicant, and a concise statement of the particular item or items claimed to be erroneously assessed, which said application shall in all cases be verified by the oath or affirmation of the applicant, and must be filed with the Auditor before the first day of January following the date of the filing of the assessment roll.

Section 4. The assessment roll and all applications for revision, shall be referred to the Committee on Ways and Means, who, with the assistance of the Assessor and Auditor, shall carefully examine the same and report to the Common Council such alterations and corrections as they may deem necessary and proper to be made.

Section 5. The assessment roll when corrected shall be accepted by the Common Council, and all general or special taxes when levied shall be extended thereon by the Auditor and said roll delivered to the Treasurer for the collection of such taxes.

Section 6. Upon the receipt of a tax roll of any general or special tax the Treasurer shall give notice by publication in at least two newspapers printed in the city, that such taxes must be paid to him within thirty days or they will be returned as delinquent.

The Chief of Police shall return said roll and warrant with his doings thereon within sixty days from the date of its issue.

Section 9. The Chief of Police shall receive five (5) per centum in addition to the costs of collection upon all assessment taxes collected by him, and all warrants for the collection of such taxes shall demand him to collect such per centum in addition to such taxes coln.
